DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-8 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Farrow et al (US Patent Application Publication 2003/0063059A1 filed 09/28/2001) or by Farrow et al (US Patent Application Publication 2003/0063432A1 filed 04/09/2002 and based on the Provisional Application filed 09/28/2001). Both Publications describe the same structure as proposed by the applicant.

3. Examiner directs applicant's attention to the already published US Design Patent by Hill et al (US D469,085) describing the similar structure.
